Spinner II Centrifuge Models

For help in choosing the right Spinner II centrifuge for your application, go to [Model Selection Guide](#) or contact your Spinner II Products representative.

MODEL 25

Processes up to 0.8 gpm (3.0 L/min)

Holds up to 250 cc of contaminants

MODEL 996

Processes up to 2.0 gpm (7.6 L/min)

Holds up to 900 cc of contaminants

MODEL 200 HD

Processes up to 4.0 gpm (15.1 L/min)

Holds up to 2,000 cc of contaminants

MODEL 3400

Processes up to 8.0 gpm (30.3 L/min)

Holds up to 4,000 cc of contaminants

MODEL 3600

Processes up to 16.0 gpm (60.6 L/min)

Holds up to 6,000 cc of contaminants

PARALLEL SYSTEMS

Centrifuges may be combined in parallel systems to process 100+ gpm (378+ L/min)

Contaminant-holding capacity varies according to number of centrifuges in the system
